Profile

Results-driven Project Manager with over 18 years of experience in underground pipeline construction, specializing in project estimation, cost control, scheduling, and field operations leadership. Proven track record of delivering complex, high-risk infrastructure projects on time, within budget, and with zero lost-time incidents. Expert in bid development, subcontractor coordination, change order negotiation, and client lifecycle management—from prospecting to final payment. Adept at leading multidisciplinary teams of engineers, superintendents, and field crews while ensuring strict adherence to safety, quality, and compliance standards. Skilled in leveraging InEight (HardDollar), Primavera P3, Suretrak, and advanced Excel modeling to streamline project financials and scheduling. Recognized for fostering collaborative environments, driving operational efficiency, and building long-term client relationships.

Experience

Mile High Infrastructure Group — Denver, CO

Senior Project Manager | 01 Mar 2017 – Present

Lead project delivery for underground pipeline and utility infrastructure projects valued from \$3M to \$25M across Colorado and Wyoming. Manage full project lifecycle from bid development through turnover and final payment. Direct 6 Project Engineers and collaborate daily with 5–7 Project Superintendents.

- Led a \$19.8M stormwater pipeline project in Boulder County, completing 6 weeks ahead of schedule and 7.3% under budget by optimizing subcontractor mobilization and material logistics.
- Reduced average bid preparation time by 30% across 14+ annual bids by standardizing InEight templates and implementing cross-functional bid teams.
- Maintained 100% OSHA compliance across 56 total projects; implemented daily safety audits reducing reportable incidents by 52% between 2018–2021.
- Negotiated and processed 137 change orders over 6 years, recovering \$4.2M in additional revenue while maintaining client satisfaction (avg. CSAT: 4.8/5).
- Promoted from Project Manager in 2019 due to consistent budget performance and leadership of a high-profile Denver Wastewater Modernization Program.

Mile High Infrastructure Group — Denver, CO

Project Manager | 01 Jul 2013 – 01 Feb 2017

Managed 8–10 projects annually, ranging from \$1.5M to \$12M, focused on municipal water, sewer, and underground conduit installations. Acted as primary client contact and contract administrator.

- Spearheaded estimation for a \$10.2M natural gas pipeline expansion, winning the bid through precise takeoffs and strategic subcontractor pricing, resulting in a 14% profit margin.
- Coordinated with subs in 9 counties, reducing material lead times by 18% through vendor consolidation and advance procurement planning.
- Mentored 3 junior Project Engineers, improving team output and reducing field errors by 22% over two years.

Rocky Mountain Pipelines & Civil — Fort Collins, CO

Project Engineer | 01 Aug 2009 – 01 Jun 2013

Supported Preconstruction and Project Management teams in estimating, scheduling, and field coordination for pipeline projects in Northern Colorado and Nebraska.

- Performed quantity takeoffs for 34 pipeline projects, achieving 99.6% accuracy verified in post-completion audits.
- Developed schedule baselines in Primavera P3, reducing schedule slippage by 35% across the project portfolio.
- Recognized with “Outstanding Field Support Award” in 2011 and 2012 for resolving critical delays in Weld County Wastewater Project.

Front Range Utility Constructors — Denver, CO

Estimator / Preconstruction Specialist | 01 May 2006 – 01 Jul 2009

Conducted pre-bid estimating, subcontractor solicitation, and scope analysis for underground infrastructure bids. Worked across water, gas, and telecom sectors.

- Produced 28+ detailed cost models annually, supporting \$85M in annual bid volume.
- Identified pricing discrepancies in 11 major bids, preventing potential underbidding and margin erosion.
- Assisted in winning 19 of 24 submitted bids (79%) in 2007–2008, contributing to company growth and market expansion.

Education & Training

Bachelor of Science, Construction Management

Colorado State University

– 01 Dec 2004

Result: 3.6/4.0

Projects

Stormwater Pipeline Project | – Present

Led a \$19.8M stormwater pipeline project in Boulder County, completing 6 weeks ahead of schedule and 7.3% under budget by optimizing subcontractor mobilization and material logistics.

Natural Gas Pipeline Expansion | – Present

Spearheaded estimation for a \$10.2M natural gas pipeline expansion, winning the bid through precise takeoffs and strategic subcontractor pricing, resulting in a 14% profit margin.

Denver Wastewater Modernization Program | – Present

Leadership of a high-profile Denver Wastewater Modernization Program contributed to promotion from Project Manager to Senior Project Manager in 2019.

Weld County Wastewater Project | – Present

Recognized with “Outstanding Field Support Award” in 2011 and 2012 for resolving critical delays in Weld County Wastewater Project.
